New Mexico Professional Surveyors

NMPS, 412 North Dal Paso, Hobbs, NM 88240, (505) 393-1462

Dear COE Dean's Advisory Council,

I am writing this letter on behalf of the New Mexico Professional Surveyors (NMPS) and the Four Year Surveying Degree (FYSD) committee. NMPS is a nonprofit membership corporation representing the interests of the professional surveying industry in New Mexico and nationwide. As you are aware, New Mexico State University's (NMSU) surveying program was under consideration for being cut. NMPS is committed to supporting higher education and maintaining a four-year surveying/geomatics program in the state of New Mexico and has worked closely with NMSU to continue this highly employable four-year degree program. This program is one of a handful of programs of its kind located within the thirteen (13) western states of the US. As part of our financial commitment and promise to NMSU, NMPS is holding an annual **Fundraising Golf Tournament** in conjunction with our annual Professional Surveyors Conference to support this program; all proceeds raised and donated will benefit **New Mexico State University's new Surveying/Geomatics Program**.

Our goal is to provide a continued path through higher education for students seeking a career in the geospatial industry. NMPS/FYSD is seeking support from industry and associated industries in the form of donation or sponsorship through this event (please see additional attachments for details). This support to NMPS/FYSD is tax deductible.

Currently we have the following support in the form of sponsorship:

- 1 – Platinum Sponsor
- 2 – Crimson Sponsors
- 2 – Individual Hole Sponsors

Your participation and assistance in the effort to promote this event will help cultivate a program that will contribute significantly to the geospatial industry nationwide. It will promote and reflect a standard of academic excellence in our industry and the State of New Mexico.

Thank you for your consideration. We look forward to your support.

Sincerely,

Mark L. Marrujo, PS
