Vision of WERC:

Environmental concerns are nowadays more critical than ever, with the human population exploding throughout the world. Earth’s natural resources are being stressed like never before. Growing energy needs impact air quality and climate change on a global level. Water is becoming a precious resource to our planet.

The challenges are many, and often overwhelming. However, an innovative approach to finding solutions to these problems began in 1991 with the establishment of the WERC Environmental Design contest.

The contest has become an outstanding model that not only provides a valuable education experience, but it also offers essential training skills needed for students entering the workforce.

Mission of WERC:

The mission of the design contest is to develop human resources and technologies that assist various levels of government and private/sector companies with environmental restoration, waste minimization, pollution prevention, and conservation of natural resources.

The tasks represent real world problems faced by sponsoring industry and government agencies.

Often the solution presented by a student team will provide an implementable process or open the door to a new direction of research for the task sponsor.

We would like to ask you to become a sponsor and be part of this valuable mission.

Why Sponsor the 2020 Design Contest?

Show your organization as a thoughtful committed leader in creating opportunities for recreation and education.

As a sponsor, you will be able to:

I. Connect with experts in the environmental field from different agencies, industries and companies.
II. Highlight your organization’s expertise at the international Design Contest. The design contest provides high-quality opportunities for attendees to learn, connect, and share experiences with their peers.
III. Demonstrate your leadership and share topics you care about with faculty and students from universities around the globe.
IV. Provide professional development opportunities for mid-level managers participating as judges.
V. Meet potential employees among a pool of highly skilled students from various universities.
