F. New Rule 15.50 - Management of Health Information – HIPAA Compliance

Carlos Lobato, John Roberts, and Norma Grijalva introduced a 1st read of new Rule 15.50 - Management of Health Information – HIPAA Compliance. The Health Insurance Portability and Accountability Act of 1996, which mandates significant change in the laws and regulations governing the provision of health benefits, the delivery and payment of health care services and the security and confidentiality of Individually Identifiable and Protected Health Information. As used in this Rule, HIPAA will also include the regulations promulgated under the authority of the Act.

The adoption of a HIPAA policy is required by law and essential for NMSU to properly guard health information. The proposed rule indicates NMSU designates the IT Compliance Officer as the HIPAA Privacy Officer (HPO) and the Chief Information Security Officer as the HIPAA Security Officer (HPO). Currently, John Roberts serves as the chief information Security Officer, CISO. John Roberts talked about the resources needed in order to cover regulatory requirements, and to address technical and administrative solutions efficiently. In closing, John noted this effort would need its own department with proper staffing.

Comments should be sent to Lisa Warren, gencounsel@nmsu.edu; Carlos Lobato, clobato@ad.nmsu.edu; and John Roberts, sysjcr@nmsu.edu.

VII. Updates

A. Chancellor

Not in attendance.

B. Executive Vice President and Provost

Provost Howard touched on NMSU’s recruiting, admission, and retention efforts.

On the recruiting and admissions front, undergraduate applications to NMSU Las Cruces for Fall 2017 are up 8.2 percent compared to the same time last year, and the number of students admitted is up 18.9 percent. Most of the increase in applications can be attributed to a bump in out-of-state applications, particularly from Texas. Within the state of New Mexico, applications have increased from every county with the exception of Luna (where we have exactly the same number of applications as last year), and Doña Ana, where the number of applications is down. We will work hard to turn around the Doña Ana numbers in the coming months, and Provost Howard encouraged members to help in this effort by sharing stories of the inspiring accomplishments of colleagues and students with neighbors.

On the retention front, our fall to spring retention of our first-year students is the highest we have seen in more than a decade, a remarkable achievement and a testament to the good work of our faculty, advisors, navigators, and other staff members.

It is still early in the application and admission process and there is much work to be done to ensure that we convert applicants to Aggies.

Action Item: Justin Bannister to draft a story for publication in local newspaper(s) and other outlets on the good news about NMSU’s recruiting, admission, and retention efforts.
